Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

MAY 18 AM 11:29

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am very angry and upset that once again the FDA is trying to take away my right to get compounded natural hormones. I am not a horse and will not take Premarin which comes with a page full of warnings. That the FDA says is OK. My compounded prescription from Madison Pharmacy Associates works well for me and has no dangerous side effects. Yet the FDA is considering limiting shipments out of the state of Wisconsin. Why? Is it pressure from the big drug companies trying to drive the little ones out of business? Big money and the government do not have the right to tell me and my doctor that I may not take a perfectly safe, medically helpful compounded natural hormone.
